Best Project Award at IIT Tech Fest 2024
Top 10 in national-level Data Science Hackathon 2023
ACHIEVEMENTS

TensorFlow Developer Certificate - Google - 2023
Deep Learning Specialization - Coursera - 2023
CERTIFICATIONS

Built anomaly detection model with 98% precision.
Technologies: Python, XGBoost, SHAP
Credit Card Fraud Detection

Implemented a retrieval-augmented generation system for support queries.
Technologies: Python, LangChain, Pinecone, OpenAI
RAG-based Customer Support Bot
PROJECTS

Developed sentiment analysis model for customer reviews.
Machine Learning Intern | AI Startup | May 2023 - Aug 2023

Improved model accuracy by 15% using fine-tuning techniques.
Built LLM-based document summarization pipeline using RAG.
Data Science Intern | DataDriven Labs | Jan 2024 - June 2024
EXPERIENCE

B.Tech Information Technology, NIT Trichy, 2018 - 2022
M.Tech Data Science, Indian Institute of Technology, 2022 - 2024
EDUCATION

Python, R, SQL, TensorFlow, PyTorch, Pandas, NumPy, Scikit-learn, NLP, LLM, RAG
